Projects

Portfolio Website

- I created a portfolio website to share my professional and personal experiences with others.
- The tools used for this framework project were VS Code for the IDE and Java Language, plus CSS and HTML.
- The website shows other projects and recent projects that I have created throughout my career.
- [Website Link](#)
- Project start date: 01/2022-Present

IOS Game App

- I am creating a 2D RPG/Adventure game for IOS devices.
 - Using physics to move sprite nodes and give abilities to the user.
 - The tools used for constructing this project were the SpriteKit API and Swift language using the XCode IDE.
 - Project start date: 12/2021-Present
-
